18.

LIAISON Talked to Duggee Hatry,

✓ Senate Select Committee on Intelligence staff, in an effort to find a mutually agreeable date for the Director to appear before the Senate Select Committee and the Senate Human Resources Subcommittee on Health and Scientific Research on recent information relating to programs involving drug testing. I suggested to Mrs. Hatry that she try the morning of Wednesday, 3 August. She said she would check and be back in touch with me.

23. (Unclassified - JEC) LEGISLATION Talked with George Gilbert, OMB, concerning the Director's testimony on S. 1566, the electronic surveillance bill. He was concerned about clearing the testimony with Justice and State Departments. [REDACTED] OGC, said the testimony was essentially what the Director had said previously, and any changes would only reflect testimony by the Attorney General. I passed this on to Gilbert, who said he felt the testimony would not need clearance, but asked that we forward it to him at some time for his files.

13. [REDACTED] LIAISON Met with John Elliff, Senate Select Committee on Intelligence staff, and discussed the planned Committee hearings on the electronic surveillance legislation. Elliff said present plans call for the Director to appear in open session on 21 July in a panel with State and DOD representatives, but that this could be altered if this is not the Director's preference. Elliff said the Director's testimony should include a position on whether the Senate Select Committee on Intelligence should include the electronic surveillance of Americans abroad in the legislation. He hinted that the Committee would be receptive to a plea that it should treat this area in separate legislation, but said the Committee needed to build a record to justify this. If the Committee follows this approach, Elliff said one alternative would be to avoid the targetting questions, but to require some minimization in the statute. Regarding the Agency's executive session testimony, Elliff said we should include a statement [REDACTED]
